

No.	Tasks	Acceptance Criteria	Story	Owner	Status	Story Status
1	Research on repository		Set up	Payom	done	done
2	Set up repository (create & link to users)		Set up	Neil	done	
3	Set up server (giving users access)		Set up	Payom	done	
4	Research on MySQL vs. SQLite		Set up	Payom	done	
5	Design Database Structure		Set up	Jon	done	
6	Peer-review & Rework of Database Structure		Set up	Neil	done	
7	Create database (tables) -- might be multiple tasks		Set up	Tiberiu	done	
8	Peer-review & rework database tables		Set up	Yi Qing	done	
9	Create 'Log in' page		Log in	Tiberiu	done	
10	Implement querying from database for log in process		Log in	Jon	in process	in process
11	Implement adding user to database for 'Log In' process (session ID table)		Log in	Jon	in process	
12	Implement PHP script for successful login (add to session ID table)		Log in	Jon	in process	
13	Implement PHP script for unsuccessful login (error message)		Log in	Jon	in process	
14	Implement PHP script for checking valid session ID		Log in	Tiberiu	in process	
15	Test for successful log in		Log in	Tiberiu	not started	in process
16	Test for failure (correct/incorrect user, correct/incorrect password, invalid characters)		Log in	Tiberiu	not started	
17	Create 'Main Menu' page		Create Account	Sasi	in process	
18	Implement PHP script for 'Create account' process		Create Account	Payom	done	
19	Create 'Create account' page for manager and system admin		Create Account	Payom	done	
20	Implement adding user to database for 'Create account' process		Create Account	Payom	done	in process
21	Implement PHP script for successful addition of user		Create Account	Payom	in process	
22	Implement PHP script for unsuccessful addition of user		Create Account	Payom	in process	
23	Test for success of 'create account' process		Create Account	Sasi	not started	
24	Test for failure (empty string, username exists) of 'create account' process		Create Account	Sasi	not started	
25	Implement updating to database for log out process (remove from session ID table)		Log out	Yi Qing	not started	not started
26	Implement PHP script for successful log out		Log out	Yi Qing	not started	
27	Test for success of log out		Log out	Neil	not started	
28	Test proper operation of session timeout		Log out	Neil	not started	not started
29	Create 'Personal Information' page		View Personal Information	Tiberiu	not started	
30	Implement PHP script for 'View Personal Information' process		View Personal Information	Tiberiu	not started	
31	Implement querying from database for 'View Personal Information' process		View Personal Information	Tiberiu	not started	
32	Test for success of view personal information		View Personal Information	Yi Qing	not started
